PRE & POST CARE FOR PRX DERM PERFEXION

[The 'No Peel' Peel]

WHAT IS PRX DERM PERFEXION?

PRX is a trichloroacetic acid (TCA 33%), hydrogen peroxide and Kojic acid peel. Providing immediate aesthetic improvement, deep hydration and effective dermal stimulation, PRX peels leave your skin plumped up and bright without significant peeling. **A series of four treatments is necessary to enjoy full benefits.** Your package includes two post care products: Wiqo Moisturizing Face Cream and Facial Smoothing Liquid.

HOW TO PREPARE FOR YOUR TREATMENT

- Avoid medicated and or active products for 2 days before treatment. These include retinoids, tretinoin, glycolics, salicylic acids, lactic acids, hydroquinone products (which is the active ingredient in many of the Obagi and BACD brightening products), dapson, acne products, or precancer treatments as directed by your provider.
- Please let your provider know If you have a history of cold sores or herpes simplex as treatment may provoke an outbreak and we can pretreat with an oral RX at the time of appointment
